I just thought having assisted me to put together the business plan, I should let you know that I have finally succeeded in getting financing of R3,2 million from a Bank. Their board approved the deal end of Nov. They will also become minority shareholders holding 25.1% of equity. My business will immediately have access to their client base and networks as well as a presence in KZN, Gauteng and Cape Town through their existing offices. I cannot thank you enough for all you did. Without a convincing business plan, it would have been difficult to achieve this. I know that hard work is now beginning, but this was a very important step for me towards making my dream a reality.

While the circumstances leading to my decision to go on my own have been nothing but painful, I am grateful that they have pushed me to do what I have always wanted to do. We are ready to go come Jan 2008! Enjoy the festive season.

Kind regards,

Sizile

Thank you very much for the business plan. Would you please send the invoice for the balance still owing to you. I am sure I will be contacting you again for advice.

I'm already on the basis of preliminary discussions one bank has agreed to finance the initiative on an equity basis – not to mention being approved as a vendor by one of the big municipalities in Gauteng.

Many thanks for the the book that you sent me – which I found extremely useful, do you have any other recommended reading for someone like me venturing into this area for the first time. Once again, it has been a pleasure working with you – thank you for your patience and understanding.

Kind regards,

Good day, hope that this finds you well. Once again I would like to thank you for the advice. I implemented it immediately and had to let one of my sales people go. I however found out that I did more with less help. Thanks to your advice my sales shot through the roof so much so that it exceeded my ability to supply.

I even told the sales team to slow down in order to keep my current clients happy - and I haven't even scratched Pretoria yet. Right now I'm in the process of applying for a credit facility so that I can keep up with the demands of new clients. I truly can't thank you enough. I have yet to flood the market so don't be surprised if you see and find Premium Flow bottles at your nearest store or restaurant. I'll keep you posted with the progress and will let you know once we get to a store near you!

Stay blessed

Donald
