

LETTER OF RECOMENDATION

24/04/2014

To Whom It May Concern

I was referred to Caban by a business associate in July 2013 and approached them with the view to raising capital for my 2014 diary print run. As the timing was a bit short to procure an investor, Caban still went out of their way to assist me in every way possible.

- Did financials for the company within 24 hours. These financials were used by me to procure an investor for the company;
- Negotiated with our printers to obtain favourable printing terms;
- They signed personal and TBL Capital surety with the printers to strengthen the credit terms;
- Did a marketing campaign across all Caban Group platforms.

The Caban executives gave me some strategic advice. All of the work was done for no consideration. They have offered to assist me with my company for free advice.

Yours Truly

Alison Deary
